

# Pearl & Shine

# NANO

Nanoprotect-Pearl & Shine is a highly innovative care product that has been developed for the conservation of smooth and non soaking surfaces. It is very easy to apply and highly effective. The treated surfaces show a highly improved draining behaviour of water and a strong hydrophobicity. In addition the product gives a higher shine and colour intensity.

## Characteristics:

- water based solution with very low VOC amount

## Application:

Use undiluted. Ideal application temperature between 5°C and 35°C (surface temperature). Any residues of polish or wax harm the result. Clean the surface from any loose dirt.

Spray the surface with water. Spray Nanoprotect-Pearl & Shine on the wet surface and dry it immediately with a lint-free cloth (do not use a microfibre cloth). The product is active immediately.

Alternatively, the product can also be applied on a dry surface.

If the product dries too early or there should be too much product on the surface, this may result in the showing of white stripes. They can be eliminated by adding new product and polishing it again.

Details in the utilization are subject to the surface to be treated. We would be please to advise you in detail.

## Physical health:

Does not contain free nanoparticles which might be dangerous to human health.

## Package sizes:

Package sizes are to be agreed depending on the transport way.

## Storage:

The product may be stored for at least 24 months in its original packing. Protect from frost and direct sunlight.

## Safety/Protection Measures:

When using this product please take note of the instructions on the bottle/canister. We wish to make it clear that the use of chemical preparations should only take place when the safety measures are observed and are always out of the reach of children. The technical information given here is according to the latest technical knowledge and composed from our own experience. In view of the many uses possible with this product it is therefore the responsibility of the user to act according to the given situation in respect of safety - that is to say the user acts upon their own responsibility in any given situation when using this product. That the use of this product takes place out of our jurisdiction, we have set out safety and protection measures, but we cannot be held responsible in any circumstances. For any misuse of the product we cannot be held responsible. In the event of a new version of this information becoming available – this information here set out is no longer valid.
