

Pearl & View

NANO

Nanoprotect-Pearl & View is a highly innovative, temporary sealing agent for all kinds of glass surfaces. It has especially been developed for car windscreens. The product provides a better, faster water drain and therefore a better sight in rain. Additionally the attachment of insects and icing is reduced.

Characteristics:

- super hydrohobic
- water based, low VOC amount
- duration time approx. 2 months
- fairly priced, also available as concentrate

Application:

Use undiluted. Ideal application temperature between 10°C and 30°C. The glass surface shall be pre-cleaned with alcohol.

Apply Nanoprotect-Pearl & View with a lint-free cloth on the surface (do not use a microfibre cloth). Polish dry and streak-free afterwards. For better durability apply twice. Alternatively the product can also be sprayed onto the screen and then polished.

If the product dries or there should be too much product on the surface, this may result in the showing of white stripes. They can be eliminated by adding new product and polishing it again.

Details in the utilization are subject to the surface to be treated. We would be please to advise you in detail.

Labelling/Transport:

Flammable, not finally classified

Physical health:

Free of free nanoparticles.

Package sizes:

Package sizes are to be agreed depending on the transport way.

Storage:

Minimum 12 months in original closed-up packaging. Protect from frost and direct sunlight.

Safety/Protection Measures:

When using this product please take note of the instructions on the bottle/canister. We wish to make it clear that the use of chemical preparations should only take place when the safety measures are observed and are always out of the reach of children. The technical information given here is according to the latest technical knowledge and composed from our own experience. In view of the many uses possible with this product it is therefore the responsibility of the user to act according to the given situation in respect of safety - that is to say the user acts upon their own responsibility in any given situation when using this product. That the use of this product takes place out of our jurisdiction, we have set out safety and protection measures, but we cannot be held responsible in any circumstances. For any misuse of the product we cannot be held responsible. In the event of a new version of this information becoming available – this information here set out is no longer valid.
